

Herbersthire Castle (The Gala) Park – Tree Safety Work

HERBERSTHIRE CASTLE (THE GALA) PARK – TREE SAFETY WORK

A recent tree survey carried out by a professional arboriculturist has identified several trees within Herbertshire Castle Park that require attention due to safety concerns.

Falkirk Council has a duty of care to anybody who enters property under their ownership. As the trees have been identified as requiring work, it is necessary for these works to be carried out as soon as practically possible.

A total of 32 trees are to be felled to ground level, with a further 50 trees requiring pruning of branches.

The following plan indicates the location of the trees requiring attention in the short term.

- Trees outlined and numbered in red are to be felled to ground level (numbers 13, 14, 15, 16, 17, 18, 22, 23, 26, 27, 34, 35, G0055, 72, 73, 75, 78, 79, 81, 82, 84, 85, 86, 87, 88, 89, 90, 91, G0092, 93, 94, 96).
- Trees outlined and numbered in orange require pruning of some description.
- Trees outlined and numbered in pink require further monitoring.

The trees to be felled have already been marked with an orange dot on their trunk, so it will be possible to identify them as you walk round the park.

Contractors will be starting onsite week commencing 21st September.

Green Action Trust are acting as project managers on behalf of Falkirk Council. If you have any queries relating to any of the above, please contact Mike Ewart by phone on 0771 505 1959, or email mike.ewart@greenactiontrust.org.
